GSE: Fannie Mae, Freddie Mac, FHA | **CMBS:** Institutional Commercial Mortgage-Backed Security Loans | **ALT-A:** Alternative to Institutional but not Hard Money

- Loans based on treasuries use the corresponding treasury aligned with the initial loan term. For example, a 5-YR Fixed loan product rate would be based on the 5-YR treasury. A 7-YR Fixed loan product rate would be based upon the 7-YR treasury. Lenders add their margin (spread) to the index rate used. Some lenders use swaps vs. treasuries which are very similar in rate.
- Lender spreads vary by lender depending upon how competitive they are trying to be against other lenders. Spreads are also increased or decreased based upon the risk of the loan, including LTV, property type, use type, population, borrower financials, credit, and other factors. In most cases, the lower the LTV, the better the rate.
- Institutional, ALT-A, and Private / Hard Money rates will fluctuate in accordance with the index they are based upon. Treasuries and swap index rates change daily. Prime and SOFR change on a monthly or quarterly basis.
- Institutional, ALT-A, and Private loan rates generally improve by approximately 1% on loan sizes in excess of \$5MM.

10,000+ Lenders Nationwide

Commercial, multifamily, and investment property loans are funded by our Institutional, ALT-A, and Private / Hard Money lenders. Our lenders include Banks, Credit Unions, CMBS, Life Companies, Fannie Mae, Freddie Mac, FHA, Wholesale Lenders, SBA, and Private / Hard Money lenders.

INSTITUTIONAL LENDERS:

- Banks, Credit Unions, Life Companies, CMBS, SBA & GSE Lenders (Fannie Mae, Freddie Mac, FHA)

The lowest rates are found at the Institutional level. With that comes stricter underwriting guidelines, including good borrower credit, full-doc underwriting, good cash liquidity, and in most cases borrower net worth equal to or greater than the loan amount requested.

ALT-A LENDERS:

- Wholesale lenders, non-institutional

Loans that just miss Institutional underwriting requirements are funded by our ALT-A lenders. These loans offer rates in between Institutional and Hard Money, providing borrowers with rates better than those offered at Hard Money level, but not as competitive as Institutional grade financing.

PRIVATE / HARD MONEY LENDERS:

- Private Lending Companies, Family Offices, REIT's, Individual Investors

Loans that don't meet Institutional or Alt-A underwriting guidelines are funded through our Private / Hard Money lenders. These are the highest rates with the most flexible underwriting standards.

REAL ESTATE LOAN PRODUCT OVERVIEW

BRIDGE LOANS (Rate & Term Refinances & Purchase Loans):

- Bridge loans are short-term, interest only loans offered at the Institutional, ALT-A, and Private/Hard Money level. Terms typically range from 1 to 2-years and in some cases extend out 3-years depending upon the lender. Most private bridge lenders charge 2 to 3 points where institutional bridge loans usually are priced with 1 to 1.5 points. It is common for bridge lenders to charge no prepayment penalty, however in some cases a limited prepay period may exist or a minimum amount of lender interest earned. Most bridge loans are based on the Prime Rate or SOFR. Bridge loans have fixed and variable rate terms depending upon the lender.

PERMANENT LOANS (Perm):

- Permanent loans are long-term loans offered at the Institutional and ALT-A level. Terms typically range from 5, 7, and 10-years with 25 to 30-YR amortization. 30-YR terms are offered by some GSE and ALT-A lenders. Most permanent loan lenders charge 0 to 1 point. Permanent loans have a prepayment penalty, not including Credit Union loans. Permanent loans are typically based on the 5, 7, and 10-year treasuries or swaps.

REHAB & GROUND-UP CONSTRUCTION LOANS:

- Rehab & Ground-up Construction loans are a form of short-term bridge loan, interest only, offered at the Institutional, ALT-A, and Private/Hard Money level. Terms typically range from 1 to 2-years and in some cases extend out 3-years depending upon the lender. Most private lenders charge 2 to 3 points where institutional loans usually are priced with 1 to 1.5 points. In most cases a limited prepay period may exist or a minimum amount of lender interest earned. Most rehab and construction bridge loans are based on the Prime Rate or SOFR. Rehab and Ground-up Construction loans have fixed and variable rate terms.
